ABOUT ME

I've been building products and teams for more than ten years. I love delighting users, sweating the details, delivering quickly and shipping often. I believe software is a team sport.

EXPERIENCE

HEAD OF PRODUCT | STAE

March 2017 - November 2017

- * Defined go-to-market strategy for the world's most human-centered urban tech company
- * Conducted extensive ethnography to define long-term roadmap
- * Established key partnerships and product marketing strategy
- * Responsible for UX of public website and enterprise SaaS platform

DIRECTOR OF PM, SEARCH AND PLATFORM | GIPHY

February 2016 - March 2017

- * Owned Giphy API, user-facing search relevance and discovery
- * Integrated directly with major partners (TWTR, FB, Tinder, etc.)
- * Scaled API from tens of millions to billions of requests per day
- * Built Giphy's ETL and data analytics pipeline to provide business metrics and track trends in content and user behavior
- * Optimized search conversion and engagement by >40%
- * Managed global content distribution and internationalization

LEAD PM, INFRASTRUCTURE | DIGITALOCEAN

March 2015 - February 2016

- * Ran Product for the Storage and Compute teams
- * Helped define company strategy and long-term roadmap for Storage, Compute, Database and Monitoring offerings
- * Owned P&L and execution of Digital Ocean's first major new offering (block storage)

SENIOR PRODUCT MANAGER | AMAZON

January 2006 - March 2015

- * Held several roles of increasing responsibility across Prime Video and Fulfillment by Amazon teams
- * Last role: led Amazon's experimental computer vision product team
